

The Northeastern Interagency Coordination Center and the Northeast AD Hub Program transitioned to 100% digital in 2023. All documents will be submitted directly to the Northeast AD Hub Pinyon/Box database. This will allow direct upload to our data management system. This is a more secure method for uploading your personal information than sending it to us via email. Uploading will be done by Sponsoring Officials and individuals they chose to delegate access to. Individuals will only have Upload privileges and will not be able to view or edit any other files.

When NECC receives your approved Sponsorship Form you will be given *upload only* permissions to your agency's inbox. This will send you an email notification to walk you through getting registered with Pinyon/Box.

The preferred method of transfer is PDF files following the naming conventions listed below.

On your computer, start by creating a folder named (**Last Name_First Name**). Place all your hiring documents into this folder. Once your hiring package is complete upload the folder to the Pinyon/Box *INBOX* folder via the link you used to register. Each Sponsoring Unit will have their own inbox. *For mobile device directions, see Adobe Scan section below.*

Please make sure that you are uploading the folder you created with the documents inside of it, not multiple individual files into your agency's inbox.

For help filling out all documents please see the AD PAPERWORK WALKTHROUGH document included with your hiring packet.

Uploading Instructions:

To upload files follow the Pinyon/Box link that you received by email. **Click on INBOX.** You can either drag and drop the file or click upload manually. **DO NOT upload files next to the INBOX** or we will not receive notification of upload and will not be able to see the files. All ADs have "upload only" acces and cannot view other documents uploaded.

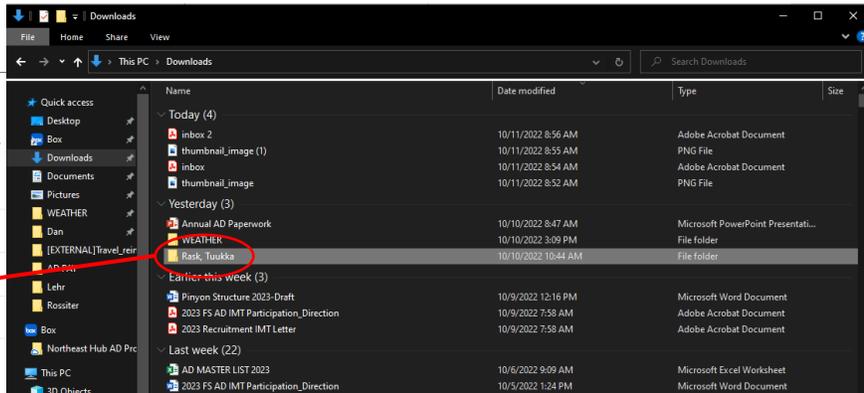

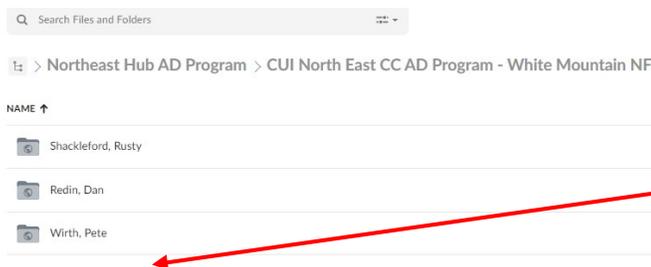

1:

Click on the 2023 Inbox

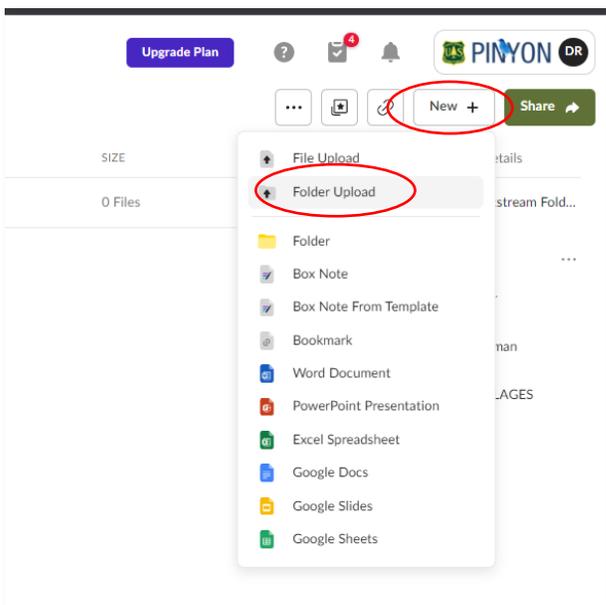

2:

Drag and drop your folder from your computer into Pinyon Box

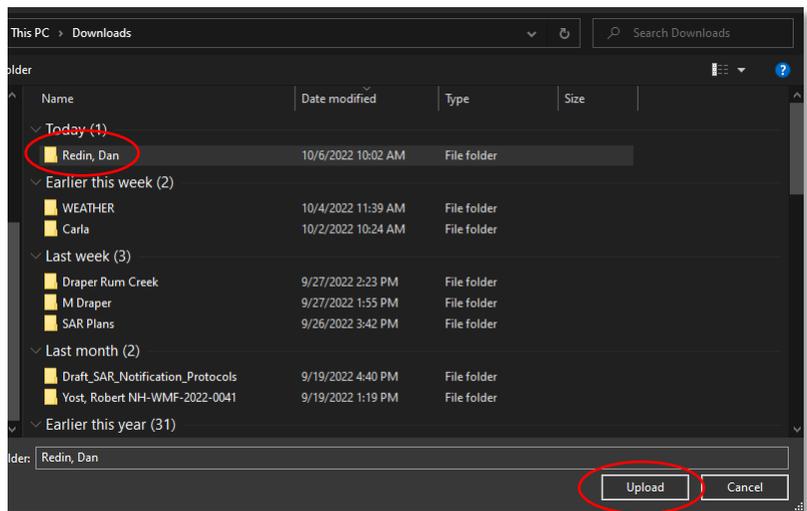

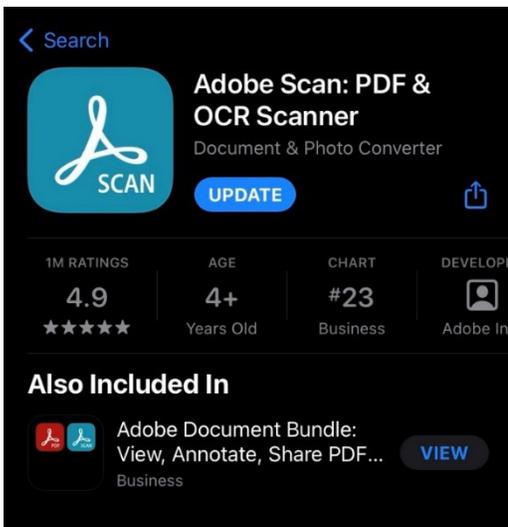

To upload manually click New, Folder Upload, Select the folder and click Upload. This will give us and your Sponsoring Official access to the folder and its documents.

Adobe Scan:

Adobe Scan is a phone application that creates PDF files. It is free to use if you don't have access to a scanner. If you take Adobe Scans of your documents, you can email them to yourself to access them on your computer and create the needed upload file as described above.

Adobe Scan provides you with the tools to combine files, separate into multiple files, export file types, rename files, fill and sign, modify scans and share both a link or a copy of your documents directly to email of your choice. This is a helpful tool for those who do not have reliable computer access and allows resources to submit paperwork more efficiently.

File Structure & Security:

Each State and Forest has their own folder. Within that folder there is an INBOX. That is the only folder AD's will have access to, and AD's will only have permissions to upload files. No other AD's will be able to access your information. The viewing/editing privileges are only given to Hiring Officials and your Sponsoring Official. Individual files are structured as follows.

01. Casual Hire Forms folder is where the Master Copy of the CHF will be housed, as well as each signed Casual Hire Form for the current year as they are created. Old forms will be filed in the Retention folder at the end of the year.

02. Hiring Documents folder will contain all annual and initial hiring documents for the year. They will be archived in the Retention folder at the end of the year. Hiring documents listed above.

03. Fire Records folder is for Red Cards, Training Certificates, Position Task Books and Master Records. These records are not required to be uploaded if a state program already has them located elsewhere but can be utilized if desired. **NECC does need a copy of current Red Card uploaded to this location.** They do not have to be in individual folders if easier to just have a single file located in the main unit's folder directly.

04. Retention folder is for all previous year's documents, they will be moved at the end of each year to archive those documents, but you will still have access to them.

05. Pay and Reimbursements folder is where NECC will place time and travel related reimbursement paperwork AFTER we submit those documents to Incident Pay Center for reimbursement and pay.

NECC has a comprehensive Master List for ADs located on the Northeast Hub AD Program main page. If each Sponsoring Official could contribute that would be greatly appreciated to expedite the set up and organization of the Hub. This will also allow us to be more efficient with mobilization and take the general workload off the Sponsoring Official.
